

From the Pastor

Every living thing has a DNA code. Every living organism has a genetic code programmed with the exact information to produce, preserve, and repair that living thing. It has no less than that necessary information and no more than that necessary information.

The genes in every organism limit that organism to what it is. It cannot be less than it is, and it cannot be more than it is. There is no genetic information to transform it into something other than what it is. The Bible talks about kinds of living things that can reproduce after their own kind. And that essentially is saying the same thing. There can be variations within a kind, but not anything beyond that.

Science has tried to tell us that evolution is a process called "mutation," that living organisms have the capacity to mutate – which simply means to change. But you need to understand this: mutations do not change the nature or the kind of any living organism. They don't make it anything other than it is. What mutations involve – and this is important – is always a loss of existing information. There is never a gain of information. Mutations never add new genetic information. Mutations therefore do not work toward an upward evolutionary process. Mutations are not a mechanism for upward evolutionary process.

This reminds me of the 2nd Law of Thermodynamics. Take my backyard for example. Everything left on its own will be in the process of deteriorating, not accelerating. Just look at anyone's yard, and you will be able to tell whether the owner takes pride of ownership and waters and mows the grass and pulls the weeds, or if they simply allow entropy to set in.

This is essentially what the Bible says in Genesis 1, and therefore evolution, as it has been taught in our so-called Institutes of Higher Learning, would be utterly impossible. Even if you had a million or even a billion years, ain't no way a monkey mutates upward into becoming a human being. What a load of...garbage. Scientists who purport this nonsense are only looking for a way to not have to answer to The Intelligent Designer behind all of Creation.

Let's go back and look at God's greatest creation, those of us men and women, boys and girls, who have been created in the Image of God.

Blessings,

Randy & Pam
